

Mitutoyo's workgroup promotion makes it affordable and easy to centralize and analyze inspection data. Pick either option to start improving your process today!

Available by download or installation CD.

Workgroup Option #1

The 2-License Workgroup is the smallest Workgroup needed to set up a centralized network of data sharing and analysis. Real-Time Professional allows for data collection on the shop floor, quality lab, or incoming inspection, while an engineer can use Process Analyzer to e-sign, analyze and report on all the data that has been captured. Add the free Security Center module for added data integrity.

Order No.	Description	List	Promo
64PKA235	2-License Workgroup	\$3,700	\$2,500
64AAB607	Real-Time Professional		
64AAB609	Process Analyzer Professional		

Workgroup Option #2

The 5-License Workgroup allows the choice to mix and match any of the MeasurLink modules*. Choose the module for each workstation at the time of installation to collect and analyze data from a variety of locations. Concurrent user options are also available. See MeasurLink 9 brochure for more details or call your local Mitutoyo representative.

Order No.	Description	List	Promo
64AAB618	5-License Workgroup	\$5,145	\$4,885

*Excludes Real-Time Professional 3D

Sample Workgroup Savings

Workgroup Option #2 Sample 5-License Workgroup

Popular MeasurLink Modules:

Real-Time Professional Connect to and acquire data from nearly any tool, device or machine, for Real-Time data collection. Inspectors will have Real-Time SPC charts and alerts to visualize and ensure product quality.

Process Analyzer Professional Analyze data collected on all networked Real-Time stations for centralized data analysis. Engineers and managers will have access to robust analysis tools and reporting capabilities.

Process Manager Professional Monitor data collected on networked Real-Time stations for up-to-date information on all processes.

MeasurLink® 9 ships with a copy of Microsoft® SQL Server Express Edition 2017 or 2014 SP1 (32-bit systems), this can be for a standalone or a workgroup installation. All MeasurLink® 9 editions are supported on the following Microsoft® Windows® operating systems: all Windows® 8, Windows® 10 versions. Both 32-bit and 64-bit operating systems are supported.
